Tales from the Campfire

I'm passing this on because it worked for me today.

A Doctor on TV said to have inner peace we should always finish things we start and we all could use more calm in our lives.

I looked through my house to find things I'd started and hadn't finished, so I finished off a bottle of Merlot, a bottle of Chardonnay, a bottle of Baileys, a bottle of wum, the remainder of Valiuminunpscriptuns, and a box of chocletz. Yu haf no idr how feckin fablus I feel rite now.

Sned this to all who need inner piss. An telum u luvum. And two al hve a Marry Crispmouse Xx

MARCH PROGRAM

Wednesday 1 March Bendigo - East Side of Railway

Leader: Jim Cone

Phone: 9560 8175

Rendezvous: 9.56 a.m. at Bendigo Railway Station

climb he exploded with the words, "What a bugger! I'll call this mountain Mount Buggery".

There was general agreement amongst other members of the party that the name was appropriate and within the Melbourne Walking Club it came into general use. Other walkers used it and eventually it appeared on maps and official acceptance followed. **Alan Budge**

Ashes and a Lyrebird

Three weeks after a great Black Friday fire in January 1939, a mate and I decided to have a look at the country north of Noojee which, by all accounts, had been destroyed. We travelled by public transport and on alighting from the bus at Noojee we were aware instantly that newspaper reports of the destruction of that town were not exaggerations. Only the pub had escaped the conflagration. The Loch River valley was devastated, and on the Saturday night we camped on an ash heap by the river. The water was drinkable, but so thorough was the burning we had difficulty in finding sufficient wood for a cooking fire.

At one stage during the trip we followed a foot track we remembered as being through fine forest, dissected by beautiful fern gullies. The blackened trees, a few only managing to sustain some sign of life, and the burnt gullies saddened us. It seemed impossible that the area would ever be green again, although eventually there was recovery of a sort. While on the track we saw our only sign of wildlife - a solitary male lyrebird. He came into our sight at some distance, and from past experience we expected he would dash away. But no, the bird continued to scratch and scrape in the ash, and very seldom did his head drop to the ground to pick up a morsel of food.

We passed within two or three metres of the lyrebird and never for an instant did he stop the frantic searching, nor did he give us so much as a glance. It was obvious that the bird was starving. We continued on our way very conscious that men and women were not the only victims of the bushfires. **Alan Budge**

(Arrive and set up Friday, work Saturday and Sunday, pack up and depart Monday)

There will be a variety of work to be undertaken, requiring a range of skills and experiences. Jobs include chain sawing, brush cutting, clearing of debris, cut and paint of blackberries and replacing/adding markers.

Ideally we would like 20-30 people with mixed skills, with only 3 or 4 people requiring chainsaw qualifications.

We will meet at the Omeo Historic Park beside Parks Victoria Office Main Street (Great Alpine Road) in Omeo at 12pm for lunch and leave at approximately 1.30pm for Mt Wills.

We will be camping at Mt Wills Hut and any vehicle that is AWD (Subaru) or 4WD should be able to travel along the maintenance track to the hut. If not, the vehicle can be left at the Tallangatta Ski Club.

You will need to bring your breakfasts, lunches, dinners and evening drinks. The Saturday evening meal will be a BBQ compliments of Parks Victoria.

For further information or to indicate your interest in coming along, please contact David directly.

What's in a Name

When the name Mount Buggery first appeared on official maps as the title of a steep point on The Crosscut Saw walkers and others experienced a slight sense of disbelief. There was a general acceptance however that the title was apt, a view re-enforced after climbing it from either the northern or southern side.

There is circumstantial evidence that the name was first applied by a member of the Melbourne Walking Club, Stewart Middleton. During the 1934 Christmas period he and five members of the club walked along the Buckland-Buffalo divide to Mount Selwyn, fought their way through the dense scrub on the Barry Mountains to Mount Speculation, followed the Crosscut Saw to Mount Howitt and finished at Merrijig via the Howqua river. There were no tracks of any sort until they reached Mount Howitt and Stewart, perhaps not quite as fit as he could have been, was finding the going tough after the descent from Mount Speculation. Faced with the prospect of yet another laborious

Grading: Easy/Medium

Distance: 12 km.

Transport: 7.41 V/Line Bendigo/Eaglehawk train ex Southern Cross, arriving Bendigo at 9.56. Seniors Off-Peak Concession; or Seniors voucher (MYKI = \$20.16 return); Return train from Bendigo at 1.36, 2.38, or 2.56.

If attending - secure an updated V/Line timetable as changes have been made and may continue. Appreciate that Bendigo is in a different Fire Zone from Melbourne; so that a fire ban can occur in Bendigo even if not in Melbourne. Bookings and tickets should be secured ahead of time: a pleasant day out in Bendigo would include lunch but without the walk - that is: if a fire ban were declared between the time the tickets were bought and the walk event.

Bushwalking Tips – Hiking in Hot Weather

1. **Pick the right trail.** Plan ahead. Considerations include: forecast temperature(s), shade, water, altitude, strenuousness of the route, length of route.

2. **Start early in the day** – perhaps at dawn. Take it easy. Be aware of the hottest times of the day for the area in which you are walking. If you are going to climb, try to arrange your walk so you do that in the coolest part of the day.

3. **Cover up.** Shield as much of your body as possible from the sun. Wear loose fitting, lightweight, breathable clothing. Protect your eyes. Protect the top of your head. Use sunscreen.

4. **Hydrate and stay hydrated.** Hiking in hot weather more than doubles the amount of water you need. The Bushwalking Victoria Facebook page includes 7 tips for staying hydrated.

5. **Stay salty.** Remember to rebalance those electrolytes so you don't run out of energy.

6. **Rest more often.** Rest in shade wherever possible to give your sweat time to evaporate and cool your body. Never miss a chance to go swimming.

7. **Wear appropriate footwear.** – Shoes/boots that are as light as possible commensurate with the track/pack weight requirements. Carry extra socks so that you can change socks to cool sweaty feet and reduce the risk of blisters.

8. **Know the signs of heat exhaustion and heat stroke.** At first signs, stop and find some shade and try to cool down ASAP. Start planning how to get off the track and to medical attention. Don't hesitate to call 000 if necessary.

9. **Carry DEET-based insect repellent** to fight off insects.
