Leaders Required for 3rd Wednesday Group

We have vacancies for Leaders in the 3rd Wednesday Group. No prior experience is necessary, but having had Metro Group etc. outings would be an advantage.

Interested members contact Travis Clark on 9874 6326, 0407 272 333, or by email to tec11942@yahoo.com.au

Reminder for Leaders of Metro Walks

When the walk has been completed, the track notes and maps provided should be updated to include any changes to the route, and to highlight any escapes or options that members who may not wish to walk the whole distance can use.

Two copies of the updated track notes should be forwarded to Oliver Lucas or emailed to David Watkins at mdwatti@bigpond.net.au

Help Required For Work At Walter Briggs Hut

Help is required from members with practical skills to carry out some maintenance work at the Walter Briggs Hut at Mt Donna Buang.

There is ongoing maintenance work required at the hut and unless we have volunteers with the necessary skills and experience to carry out this work the Club will have no option other than to pay contractors to do this work. Given the location of the hut this could be an expensive exercise.

The next major project will be to replace some of the rotted stumps and timber boards on the outside of the hut. In the past this type of work has always been done by volunteers from within the Club and we hope

that this tradition can continue.

If you can help or would like more information please contact the Hut Convenor, David Kerferd by phone or email at:

donnabuanghut@melbournwalkingclub.org

Trevor Rosen, Acting President

3rd Wednesday Group - Xmas Lunch - December 6th

24 starters enjoyed a pleasant lunch and talk fest at the Royal Hotel, Upper Ferntree Gully, with half having completed the morning walk.

We were very pleased to have Don and Joyce Gillespie with us. Don is in his 102nd year and still manoeuvring quite well. He has the current record for holding all three age awards including the "OHNO".

Also present were two "NON Award" holders (Lance Cranage and Geoff Woodford) plus seven "OBes", all in hot pursuit of an "OHNO" no doubt!

Update To Greensborough Walk: Wednesday 24 January

Please note the following:

- The walk will be postponed if the forecast top temperature is over 30° or fire danger is high. Contact leader if in doubt.
- Buses replace trains until 23 January. Trains should be running on time on the 24th.
- The #385 bus stops in Flintoff St, Greensborough (round the corner from Para Rd).
- The walk will include a section of narrow, undulating track, badly damaged by mountain bikes, high above the river.
- Some other tracks are also badly eroded, and reasonable fitness is required to make a challenging descent to the river level.
- Stepping stones across the river are likely to be under water and slippery. Two walking sticks are recommended; even so, wet feet will probably result.

Contact the leader Keith Tupper on 9457 2595 for more details.

Vale Tony Durrant

Tony Durrant died unexpectedly but peacefully on Tuesday 12th December 2017.

Tony was a great walking companion. He was a kind-hearted, gentle, compassionate person.

He was a family man. He travelled far and wide with Judy, and spent many hours enjoying the company of his children and their partners. Helping his family was part of his DNA and he was blessed with practical and handyman skills which he applied with loving enthusiasm. He adored his grandchildren.

Tony enjoyed the outdoors taking part in skiing with Coonamar Ski Club, sailing with Sandringham Yacht Club, walking with Melbourne Walking Club as well as other local groups.

Tony occupied official positions on the Coonamar committee for many years and was very active at work parties in the off season. He thoroughly enjoyed skiing with family and fellow Club members both at Mt Buller and in Japan. In younger years our annual cross country skiing trip to Mt Bogong was made richer by Tony's presence.

Every Wednesday Tony would go sailing as crew member at Sandringham Yacht Club with the Wednesday Wonders. He was passionate about this activity. He was very proud of the success recently enjoyed by the crew.

An active member of Melbourne Walking Club, Tony mainly participated with the Peninsula Group. If you ever had the chance to accompany Tony on a bush track, sail the seas or go skiing you would be aware that he was not there just to enjoy the activity. He loved being with good mates. The greatest joy for him would have been the camaraderie. For me, his was a special, caring friendship.

Our thoughts and prayers are with Tony's wife Judy and children Kelly, Tom, Joanna, Catherine and families. We will all miss Tony's company, his humour, his companionship. I am grateful for fond memories of a true friend. Tony will be sadly missed by all who walked with him at MWC.

Bushwalking Victoria Safety Bulletin

Sun Exposure

Australia is known as the skin cancer capital of the world. For best protection, the ARPANSA (Australian Radiation Protection and Nuclear Safety Agency) recommend following the measures below:

- Slip on some sun-protective clothing.
- Slop on a broad spectrum, water resistant SPF30+ sunscreen.
- Slap on a broad brim or legionnaire style hat.
- Seek shade.
- Slide on some sunglasses.

Dehydration

Not drinking enough water may well be the most common mistake made by bushwalkers. When the weather is brutally hot and your body sweats profusely, water by itself is not enough. Munching on trail mix or another salty snack can help avoid this problem. Sports drinks are effective, but be wary of drinking too much since they often contain large amounts of sugar. In a pinch, a dash of salt and sugar can be added to a water bottle for similar results. Before your walk, be sure to drink one or two cups of water, juice or a sports drink.

Snakes

We have some deadly snakes in Australia. The majority of those killed or injured by snakes in this country are bitten when they either accidentally step on a snake or try to capture or kill a snake. Here are 3 simple tips for avoiding a snake-bite:

- Leave them alone
- Watch where you put your feet
- Cover your legs

Treatment of Snake Bite

The treatment of snake bite should reduce the amount of venom that reaches the bloodstream by applying firm pressure over the bitten area and minimizing movement. If a member of the party is bitten:

- Immediately apply firm pressure over the bite site.
- Lay the victim down and keep them calm and at complete rest.
- Apply a broad firm bandage to the bitten area and around as much of the limb as possible.
- Immobilize the limb with a makeshift splint.
- Constantly observe the patient for shock and respiratory failure.
- If external help is unavailable, rest for a day or two, then proceed to the nearest civilization taking care to minimize stress to the patient.
- DO NOT deliberately disturb a snake.
- DO NOT walk in sandals or thongs.
- DO NOT cut or wash a bite.

- DO NOT apply an arterial tourniquet.

If you yourself, or a fellow bushwalker encounter a snake bite, we highly recommend the use of Setopress bandages.

Bushfires

Follow these bushfire safety tips to ensure that your experience is safe and enjoyable.

- Call the VicEmergency Hotline **1800 226 226**, or listen to your local emergency broadcaster (www.emergency.vic.gov.au).
- Avoid bushfire situations. If in doubt, U-turn to safety.
- DO NOT HIKE ON FIRE BAN DAYS.
- Tell someone where you're going and pack a mobile phone.

If there is a bushfire, stay calm - do not panic.

If you are in a car:

- If you can, U-turn to safety and leave the area.
- Do not get out and run - stay in the vehicle.
- Park in a large clear area, away from trees and long grass.
- Turn on headlights and hazards lights.
- Close windows and vents. Get below window level.
- Cover exposed skin with a dry woollen blanket.
- Wear dry, natural fibre clothing.
- When the fire has passed, get out of the car.

If you are outdoors:

- Seek refuge.
- Avoid slopes and hill tops - avoid being above a fire.
- Do not seek refuge in above ground tanks or above ground pools.
- Cover exposed skin with dry natural fibre clothing.

Lastly, ensure you download the Vic Emergency app prior to leaving.

One final reminder

If you're hiking remotely or alone, please ensure you carry a PLB (Personal Locator Beacon).

The Vic Emergency app may be accessed at

<http://emergencyapp.triplezero.gov.au/>.
